

Capabilities

Phillips & Koch Construction is dedicated to providing world-class service at competitive pricing to keep your facility efficient and safe.

With decades of experience, we provide a wide variety of installation, shutdown and heavy equipment services for your industrial needs.

Area of Expertise

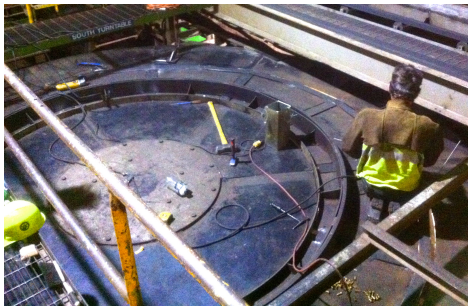

We install custom conveyor and wood product systems and relocate used equipment and production lines.

Fabrication

We provide push-walls and safety items including: handrail, stairs, guards, ladders and other customized items made in our shop or on-site to your specifications.

Installation

Our experienced field crews specialize in adapting to your unique scheduling needs, operational requirements and location.

About Us

Phillips & Koch Construction, based out of Oregon, offers safe, professional, quality services for your company's wood product construction needs. The owners will personally see that the job is done to your satisfaction.

We have established a solid reputation for on schedule, on-budget performance and would be pleased to provide references or a short list of our satisfied customers. We are currently licensed in Oregon, Washington, California and Nevada and have worked throughout the US.

Commitment

Our company prides itself on our commitment to safety, customer satisfaction and quality assurance. We are extremely good at working with an operating facility to minimize the downtime during a system revision or modification. Through temporary by-passes or unusual shift work we do what it takes to keep the customer running as much as possible. Most important, we deliver the project when we say we will.
